PROFESSIONAL SUMMARY

Information Technology graduate with hands-on experience in Machine Learning, Deep Learning, Generative AI, and Full-Stack Web Development. Skilled in building end-to-end data-driven applications using Python, TensorFlow, Scikit-learn, LangChain, and Flask. Proven ability to design and deploy ML models, Retrieval-Augmented Generation (RAG) pipelines, and REST-based web applications. Strong foundation in Object-Oriented Programming, SQL, Cloud Computing (AWS), and Agile software development. Seeking a software engineering role to deliver scalable, intelligent solutions.

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL, JavaScript

Machine Learning & AI: Machine Learning, Deep Learning, Artificial Neural Networks (ANN), Natural Language Processing (NLP), Generative AI, Large Language Models (LLM), Retrieval-Augmented Generation (RAG), Prompt Engineering

ML / AI Libraries: TensorFlow, Keras, Scikit-learn, LangChain, Groq API, Pandas, NumPy, Matplotlib

Web Development: HTML5, CSS3, JavaScript, JSP, Flask, Streamlit, REST APIs

Databases: MySQL, SQL

Cloud & Platforms: Amazon Web Services (AWS), Salesforce CRM, Apex

Tools & IDEs: Git, GitHub, VS Code, Eclipse IDE, Jupyter Notebook

Concepts: Object-Oriented Programming (OOP), Data Structures, Algorithms, Software Development Life Cycle (SDLC), Agile, Version Control

EDUCATION

Bachelor of Technology (B.Tech), Information Technology | Nov 2021 – Jun 2025

Vasireddy Venkatadri Institute of Technology, Guntur, Andhra Pradesh | CGPA: 8.28 / 10

Intermediate Education (MPC – Mathematics, Physics, Chemistry) | Jun 2019 – Apr 2021

Shastra Junior College, Vijayawada, Andhra Pradesh | Score: 95%

Secondary School Education (10th Standard) | Jun 2018 – Apr 2019

Sri Chaitanya School, Dachepalli, Andhra Pradesh | GPA: 9.7 / 10

PROJECTS

Comparative Analysis of Hepatocellular Carcinoma (HCC) Classification | Dec 2024 – Apr 2025

- Developed a machine learning pipeline to classify Hepatocellular Carcinoma using multiple supervised algorithms including Random Forest, XGBoost, and Logistic Regression.
- Achieved a **ROC-AUC score of 0.97** through feature engineering, hyperparameter tuning, and cross-validation.
- Deployed the trained model as a Flask-based REST web application for real-time prediction.
- **Tech:** Python, Scikit-learn, Pandas, NumPy, Matplotlib, Flask

Multi-Document RAG Application with Groq LLM | 2024 – 2025

- Built a Retrieval-Augmented Generation (RAG) pipeline to query multiple documents using a Groq-hosted Large Language Model.
- Implemented document chunking, vector embeddings, and semantic search using LangChain.
- Delivered an interactive Streamlit interface for low-latency question-answering across PDF and text documents.
- **Tech:** Python, LangChain, Groq API, Streamlit, Vector Embeddings

Customer Churn Prediction using Artificial Neural Networks | 2024

- Designed and trained an Artificial Neural Network (ANN) using TensorFlow and Keras to predict customer churn.

- Performed data preprocessing, encoding, scaling, and model evaluation on a real-world banking dataset.
- Built a real-time Streamlit web application for end-user churn predictions.
- **Tech:** Python, TensorFlow, Keras, Pandas, Streamlit

Learning Resource Hub – Student Web Portal | Feb 2024 – Apr 2024

- Developed a full-stack student-facing web portal for managing and accessing academic learning resources.
- Implemented server-side logic in Java using JSP and connected to a relational database for resource storage and retrieval.
- Designed responsive front-end pages using HTML5, CSS3, and JavaScript.
- **Tech:** Java, JSP, HTML5, CSS3, JavaScript, SQL

Streamlit AI Chatbot | 2024

- Built a conversational AI chatbot delivered as a Streamlit web application.
- Integrated language model APIs to generate context-aware responses to user queries.
- **Tech:** Python, Streamlit, Generative AI

INTERNSHIPS

Salesforce Developer Intern – Salesforce & SkillUp | May 2024 – Jun 2024

- Completed structured training on Salesforce CRM platform customization, Apex programming, and Lightning components.
- Built sample Salesforce applications covering objects, validation rules, workflows, and basic Apex triggers.

Data Analyst Intern – AWS & SkillUp | Dec 2022 – Feb 2023

- Worked on data analysis workflows leveraging Amazon Web Services (AWS) cloud tools.
- Practiced data cleaning, exploratory data analysis (EDA), and visualization using Python (Pandas, NumPy, Matplotlib).

CERTIFICATIONS

- NPTEL – Cloud Computing
- Celonis – Business Analyst
- Cybersecurity Fundamentals
- Machine Learning with Python
